PROFESSIONAL SUMMARY

Product Designer with strong experience designing AI-powered digital products across healthcare, edtech, and B2B SaaS. I combine UX strategy, UI design, and front-end understanding to ship fast, scalable, user-centered solutions. Achievements include a ₦10M hackathon-winning platform, a 40% retention improvement in enterprise software, and shipping a complete healthcare MVP in under 3 weeks.

EXPERIENCE

Product Designer (Contract) — Treatment Path (UK, Remote)

Aug 2025 – Oct 2025

- Delivered a dental management MVP in less than **3 weeks** for a £500k/week practice.
 - Built a full design system and implemented AI voice-to-text features.
 - Automated **73%** of patient follow-ups through UX-driven SMS workflows.
 - Reduced administrative workload by **40%** and cut response time from **45 minutes → 2 minutes**.
-

Lead Product Designer — UniversityX (Remote)

Sep 2024 – Jun 2025

- Led product design for an AI edtech platform that won the **₦10M Wema Bank Hackaholics 5.0** competition.
- Designed gamified workflows that improved student engagement and retention.

- Built design system, UX architecture, and product strategy with a cross-functional team.
-

Lead Product Designer — OpenXP (Remote)

Jan 2024 – Aug 2024

- Ranked **Top 30 / 5,000+** global submissions at LabLab NEXT.
 - Designed AI-powered learning & career guidance systems.
 - Shipped two major versions with improved analytics, tracking, and exam-prep workflows.
-

Product Designer — CES / CX2 AI (B2B SaaS)

Feb 2023 – Dec 2023

- Improved customer retention by **40%** through data-driven UX redesigns.
 - Designed **CX2 AI**, an enterprise customer-experience & analytics dashboard.
 - Built intelligent workflow tools, reporting dashboards, and decision-support interfaces.
-

VOLUNTEER & INTERNSHIP EXPERIENCE

Volunteer Product Designer — MolarHealth Dashboard

2024

- Designed a healthcare dashboard for appointments, analytics, and workflows.
- Built responsive UI and full design system.
- Secured **\$500+ project grant**.

UX Design Intern — Wikipedia Community Portal Redesign

2023 – 2024

- Redesigned the Wikipedia Community Portal with improved accessibility & cognitive clarity.
 - Added text-to-speech, distraction-free mode, and simplified navigation for neurodivergent users.
-

KEY ACHIEVEMENTS

- **₦10M Winner** — Wema Bank Hackaholics 5.0
 - **Top 30 / 5,000+** — LabLab NEXT Global Hackathon
 - Improved enterprise retention by **40%**
 - Reduced healthcare admin workload by **40%**
-
